The Content Posting Checklist.

Check every box before you hit post. Keep it clear, useful and ready to share.

01 Before You Film.

- ☐ Wipe your lens clean.
- ☐ Put the light in front of you. Face a window rather than standing with one behind you.
- ☐ Choose a quiet space with minimal echo, such as your car.
- ☐ Know the **one thing** this post is about. Say it in one sentence first.

02 The Three Parts.

- ☐ **Hook:** Use the first line or first three seconds to stop the scroll and spark a question.
- ☐ **Retain:** Use a story, example or context to keep people watching for the payoff.
- ☐ **Reward:** Deliver the lesson, reveal or result. Answer the question your hook raised.

03 Filming.

- ☐ For a talking head video, prop your phone up. If you are moving, hold it steady.
- ☐ Look at the lens, not at yourself.
- ☐ Talk to one person, not "you guys."
- ☐ Skip introductions. Say what the video is about and get straight to it.
- ☐ Record until it feels right. Go line by line if that works best.

04 Quick Edit.

INSTAGRAM EDITS APP

- ☐ Cut out unnecessary pauses and "ums."
- ☐ Turn on captions. Make them easy to read and check every word.
- ☐ Watch it back once and cut one more boring second.

Every Box Checked? Post It.
