Partner Content Guide.

A tactical structure for what to post, how often to post it, and how to use the partner community to improve.

THE POSTING RHYTHM

DAILY
Share a win. Add value. Use the community.

WEEKLY
Make one clear call to action.

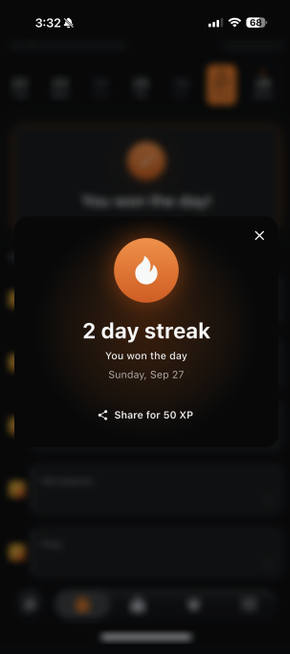

EVERY 3-6 MONTHS
Refresh your pinned personal story.

01 Share Your Wins Every Day.

DAILY / AFTER YOUR CRITICAL TASKS

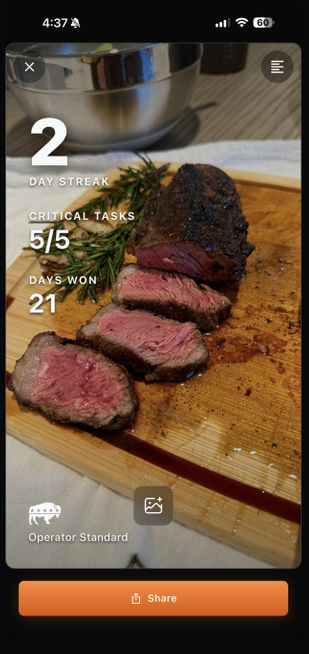

Complete your Critical tasks, then share your streak with your partner link. Make it a daily habit that puts The Operator Standard in front of people and keeps you publicly accountable.

Add a photo to make the post more interesting. Use a short text overlay to share something about your day, what you learned, or what it took to follow through.

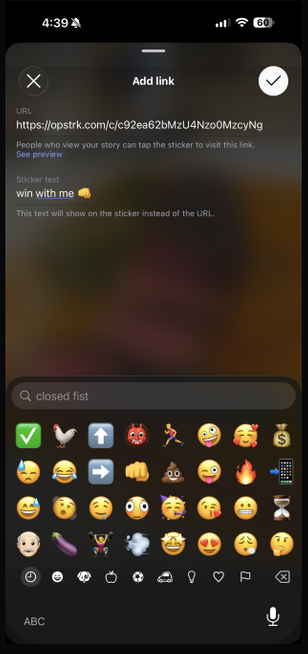

01 **Share Your Streak.**

Tap “Share for 50 XP” after completing your day.

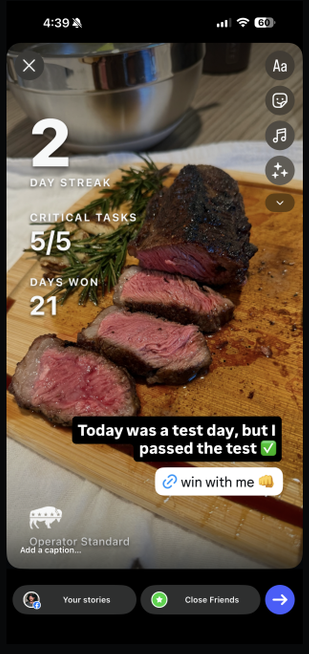

02 **Add Your Photo.**

Tap the photo icon, choose your picture, then tap Share.

03 **Add Your Link.**

Add your partner URL as a link sticker. Try “win with me.”

04 **Tell Your Story.**

Add a note about your day. Keep the link visible and share.

02 Pin Your Personal Story.

SET IT UP / REFRESH EVERY 3-6 MONTHS

Pin a carousel introducing who you are, what your page is about, what you have accomplished, and what you are working toward. Visitors should quickly understand you and whether your values align.

Include The Operator Standard, 75Hard, Real AF or MFCEO only if they made a tangible difference in your life. Make them an authentic part of your story; do not force the mention.

03 Publish One Value Post Per Day.

DAILY / REEL, STATIC POST OR CAROUSEL

There are three types of value you can provide in content.

1. Entertainment - Make people laugh, enjoy the moment, or connect with a relatable experience.

2. Education - Teach something useful that helps people understand a topic or solve a problem.

3. Inspiration - Show a story, example, or perspective that encourages people to take action.

Every value post must deliver at least one of these. It can deliver more than one, but it must deliver at least one.

Keep the post focused on value, with no call to action. Mention The Operator Standard naturally if it fits, but avoid turning the post into a pitch.

Use the Hook Library: Choose a template, fill in the blanks for your audience, and deliver on the opening.

04 Make One Clear Call To Action.

WEEKLY / GIVE PEOPLE A REASON TO CARE

Make one clear call to action each week. Pair it with a story, a personal win, or a question someone asked. Give people a reason to care before asking them to act.

Keep the promotion useful and natural. Disclose your partner relationship up front when promoting The Operator Standard.

05 Use The Partner Community.

DAILY / GET FEEDBACK AND SUPPORT

Share drafts before they go live. If posting feels uncomfortable, let the community coach you through it.

Content feedback: Tag **@Matt_Graham** for a review.

Need ideas? Post and brainstorm with the community.

Bringing someone into The Operator Standard? Ask the group for guidance.

See quality partner content? Shout them out in the group.
