EDITION
SEP 2026 · v1.0

Built for people who execute.

The Operator Standard is a membership app for people who hold themselves to a higher standard, and want the structure, coaching and crew to live up to it every day.

> **We don't sell motivation. We give Operators a system to win the day, and the people to win it with.**

EXECUTION

Critical tasks & streaks

Members set the few tasks that matter each day. Complete them all and the day is won. Winning days build a streak.

COACHING

ARCANE

An AI coach that helps members define their vision, set targets and turn them into a daily plan.

ACCOUNTABILITY

Crews & Topics

Small crews that hold each other to the standard, plus Topics: community spaces built around shared interests.

CONTENT

Episodes & live video

Podcast episodes, courses and live sessions that teach the principles behind the standard.

WHO WE'RE TALKING TO

Driven adults who are done making excuses: entrepreneurs, athletes, parents and professionals who want discipline to become a habit. They respond to proof and to directness, and they tune out hype.

Get the name right, every time.

Spell the brand and its features exactly as shown. Consistent naming is what makes a thousand partners sound like one brand.

USE	NOT	NOTES
The Operator Standard	~~RealAF~~, ~~Real AF~~, ~~TOS~~, ~~Operator Standard App~~	Always the full name with a capital "The". Never abbreviate it in public-facing copy.
Operator / Operators	~~users~~, ~~customers~~, ~~subscribers~~	What we call our members. Capitalized.
ARCANE	~~Arcane~~, ~~the AI~~, ~~chatbot~~	Our AI coach. Always all caps.
Crews	~~groups~~, ~~teams~~	Small accountability groups inside the app.
Topics	~~Communities~~, ~~forums~~	Community discussion spaces.
Critical tasks	~~to-dos~~, ~~habits~~	The daily tasks that decide whether a day is won.
OperatorStandard.com	~~operatorstandard.com/~~, ~~www.~~	In creative, write the domain in camel case, with no protocol and no trailing slash.

CAPITALIZATION

Headlines and buttons use **Headline Case**: "Share The Standard.", "Get Started", "Let's Go". Body copy uses normal sentence case.

The bison is the mark.

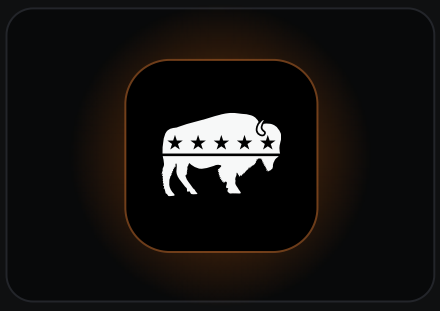

A bison carrying five stars. Use it as supplied, in one color, with room to breathe.

Primary. Snow on obsidian.

Reversed. Ink on light, only when a dark ground isn't possible.

App icon. Use it where the goal is a download. The ember glow is allowed here.

Clear space

Keep empty space around the mark equal to at least half its height. Keep text and other logos outside that zone.

Minimum size

32px wide on screen, 0.5in in print. Below that, the stars blur. Use the app icon instead.

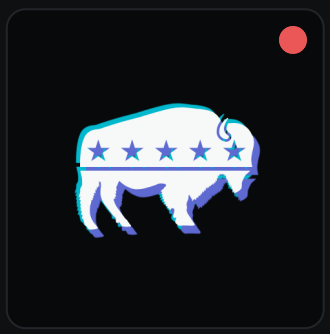

Don't

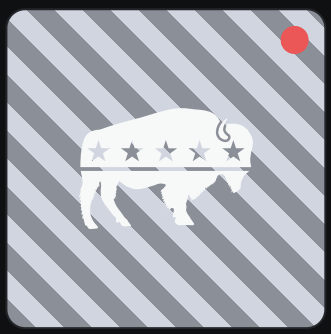

Recolor it ember or add colors

Stretch, squash or rotate it

Add shadows, outlines or effects

Place it on busy, low-contrast backgrounds

Dark ground. One ember.

Our look is a near-black canvas lit by a single ember orange. Ember means "act here". If everything is orange, nothing is.

Obsidian
#08090A · RGB 8 9 10
The ground. Backgrounds and large surfaces.

Ember
#F4700D
Buttons and one highlight.

Snow
#F7F8F8
Headlines, logo, body text.

Card
#161718

Fog
#8A8F98

Ember Flame
#FF8C3A → #E05500

BALANCE IN A TYPICAL PIECE

Do

- Use ember for the button or a single key word or number
- Save the Ember Flame gradient for the logo tile, the main button and moments of achievement
- Keep text on ember white

Don't

- Set body copy or long headlines in orange
- Add new brand colors (no blues, purples or neons)
- Use pure #000 or #FFF for large areas

Humans write in sans.
Systems measure in mono.

Headlines and copy are set in a clean, heavy sans serif. Numbers, stats and small labels are set in tracked monospace capitals, like readouts on an instrument panel.

HEADLINE
SANS · BOLD

Win the day. Then do it again.

SUBHEAD
SANS · SEMIBOLD

Refer friends. Win together.

BODY
SANS · REGULAR

Share your link. When someone joins The Operator Standard through it, you get a cash payout. The amount depends on the membership they choose.

LABEL
MONO · CAPS

DAY STREAK · CRITICAL TASKS · WON

STAT
MONO · MEDIUM

142 DAYS WON

FONTS

Sans: SF Pro Display (Apple) or Inter (everywhere else).
Mono: Geist Mono. Both Inter and Geist Mono are free on Google Fonts.

RULES

Headlines are tight (−2 to −4% tracking) and end with a period. Mono labels are always caps and spaced out (+6 to 8%). Never set a whole paragraph in mono.

Direct. Earned. No hype.

We talk like a coach who respects you: short sentences, plain words, clear action. We back up what we say.

DIRECT

Say it in as few words as possible. Lead with the action. Cut every "really", "super" and "amazing".

EARNED

Talk about results people worked for: days won, streaks kept. Never promise a shortcut.

TOGETHER

Discipline is personal, and accountability is shared. Talk about the crew, not just the individual.

SAY

Win the day. Build the streak. Bring your crew.

NOT

🔥🔥 The ULTIMATE life-hack app that will CHANGE YOUR LIFE overnight!!!

SAY

The Operator Standard gives you a daily system and the people to hold you to it.

NOT

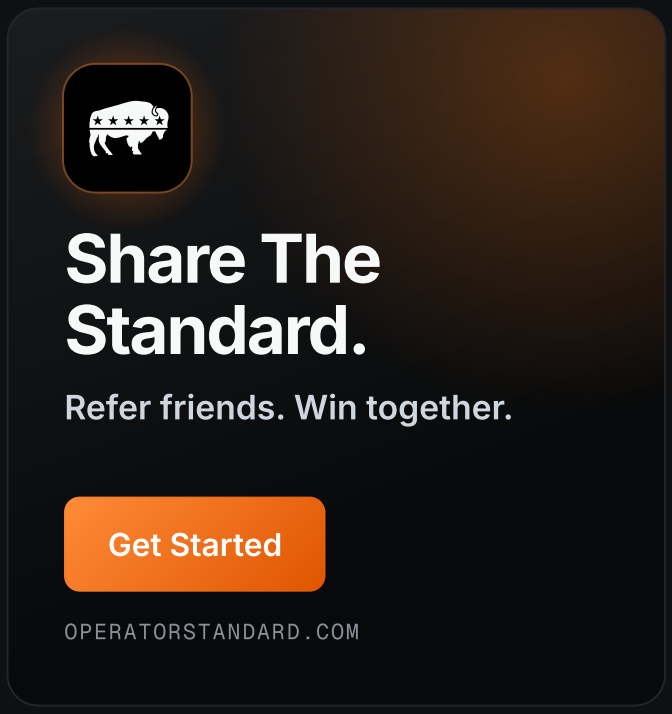

Unlock your potential with our revolutionary AI-powered productivity platform.

Approved lines

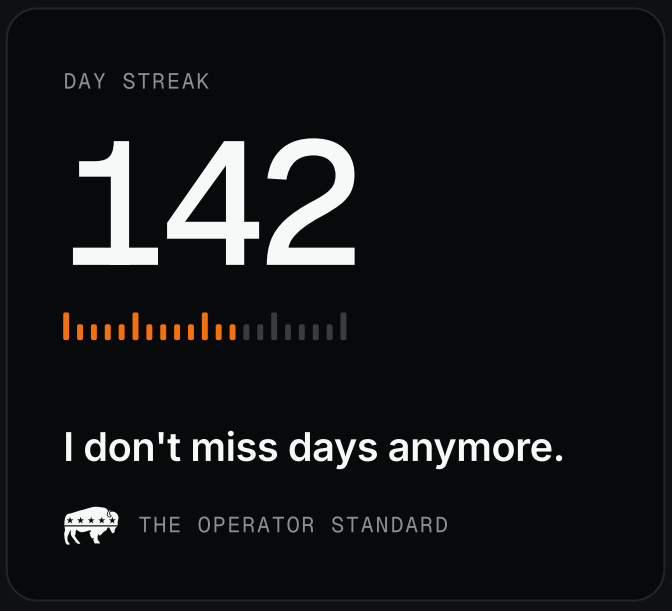

HEADLINE	**Share The Standard.**
SUBHEAD	**Refer friends. Win together.**
HEADLINE	**Win the day. Then do it again.**
EARNINGS	**Earn up to $1,000 for every Operator you refer.**
BUTTON	**Get Started · Join The Operator Standard · Share Your Link**

What good looks like.

Two reference layouts. Each piece has one message, one ember button, and the logo or app icon somewhere visible.

Referral promo. Headline, subhead, one button. Works in square, story and banner sizes.

Proof post. A real stat from a real member, written in mono. The number stays white. Ember appears only in the progress ticks.

Photography

- Low-key and moody, with deep shadows and warm highlights
- Real people doing real work: training, building, leading, early mornings
- Candid, focused expressions
- Dark enough that white type reads cleanly on top

- Bright, airy, pastel stock photos
- Posed smiling groups, thumbs up, fake celebration
- Luxury flexing: cash stacks, cars, "passive income" imagery
- Heavy filters or colored gradients over the photo

Get the numbers right.

Every member gets a personal partner link in the app under **Social → Grow the Movement**. When someone joins through it, the partner earns a one-time payout for the membership that person picks.

WHAT PARTNERS EARN · USD

Monthly	$25
Annual	$100
Lifetime	$250
Founders	$1,000

Each payout is one-time, paid after the referred member's purchase clears.

REQUIRED IN EVERY PIECE

- Disclose the relationship clearly, e.g. "#ad", "#partner" or "I earn a commission if you join." Put it up front, not buried in hashtags.
- Always write "up to" with the $1,000 figure. Never imply every referral pays the top tier.
- Never promise income, weight loss, business results or guaranteed outcomes.
- Don't imply that Andy or the company personally endorses a partner or their product.
- Don't bid on "The Operator Standard" as a paid search keyword, or run ads that look like official brand accounts.

BEFORE YOU PUBLISH

Run it past the checklist: correct name, supplied logo, one ember button, direct copy, disclosure included, earnings stated as "up to". If you have any doubt, send it to us first.
